**OPEN LETTER to President of France Emmanuel Macron**

**Please, do not condemn Israel, but help to liberate people of Gaza from the nazi-like power of terrorists!**

**Please help Israel and the United States to expand their independent of Hamas program of humanitarian aid to people of Gaza, including a new direction of such an aid - the organization of vitally demanded medical care, primarily for children of Gaza!**

**To the President of the French Republic  
Emmanuel Macron**

**Dear Mr. President,**

I am Russian physicist with the 50 years long experience of the human rights defense in the USSR and then in Russia, 20 years of them in cooperation with Andrei Sakharov. And I take a chance to express the deep gratitude to France for its invaluable support of our struggle during the Soviet era and for its commitment to the values of human rights both in the past and today.

But now, based on these fundamental values, I sincerely do not understand the position of France on the situation in Gaza. I do not understand why in Your statement several days ago and also in the joint statement of France, United Kingdom and Canada in the end of May the priority is the most serious condemnation of Israel, and not the pressing task to liberate two-million population of Gaza from the Nazi-like rule of Hamas - the rule marked by gross violations of

human rights and ruthless extermination of any opposition, both in the past and today?

From the first days of war in Gaza after the awful events of 7 October 2023 Israel appeals to moderate Arab countries to send united forces to Gaza and to substitute there the power of Hamas. But no one agreed on such a direct confrontation with Hamas. Yes, the task of liberating the population of Gaza is indeed very difficult. Yes, Hamas has dug into power in Gaza like a tick and is not going to give up this power despite great losses. That is why President Trump's proposal to provide the possibility to relocate from Gaza for those who express such a desire was humane and seemed quite realistic. But, alas, not a single country in the world extended a helping hand to these people.

Unfortunately, today Hamas has every reason to believe that its power in Gaza will be preserved and strengthened in the foreseeable future. Their "weapon" is the world-wide condemnation of Israel, up to accusations of Israel of the crime of genocide in Gaza.

This accusation was repeated by the President of Brazil Lula da Silva at Your joint press-conference with him on June 5, 2025. And You did not correct him! About how unfair such accusations are, how they insult the memory of the victims of real ethnic slaughters, and how they help Hamas to preserve its power, see in my attached Open Letter to Amnesty International.

I agree that displacement of civil population away from the future battlefields is a painful procedure, although it is obviously better than the mass deaths of innocents that result from these battles. I agree that there is a dramatic humanitarian situation in Gaza. And I appeal to You and, through You, to the leaders of the EU countries: please help Israel and the United States to expand their independent of Hamas program of humanitarian aid to people of Gaza. Including a new direction of such an aid - the organization of vitally demanded medical care, primarily for children of Gaza.

Sincerely Yours
